"National Science Day"

National science day is celebrated in India on 28 February each year to mark the discovery of the "Raman effect" by Indian physicist "Sir C.V. Raman" on 28 February 1928.

National science day is celebrating to spread the message about the importance of science used in the daily life of the people. To display all the activities, efforts and achievements in the field of science for human welfare. It is celebrated to discuss all the issues and implemented new technologies for the development in the field of science. To encourage the people as well as popularize science and technology.

Name of the activity : Awareness on Greatness of Freedom Fighters
Date : 06/09/2022
Venue : Greams Pet - Chittoor
No. Of students participated : 22

OBJECTIVES:

- To Aware the Sacrifices of freedom fighters at the time of freedom movement
- To discuss the Qualities of freedom fighters which we can follow
- To inspire the people to know morals from the life stories of freedom fighters

Activity report

India got independence 75 years ago. Still some people in the society had no awareness on our freedom fighters sacrifices. This is very important to know about their qualities life styles and sacrifices because these are Indian heritage values which praise the Indian culture in the world. People will inspire the Morals and ethics followed by our national leaders.

In day today life we have no time to remember all these things. Hence as History students, They have the responsibility to aware the people in the society about the greatness of freedom fighters. Students also discuss with the people and interact with them, This improves the communication skills in the students.

This type of community extension activities will definitely helpful to the students as well as the people in the society

Awareness on "Heart disease"

29/9/2022

The Department of Zoology conducted awareness programme on heart diseases in Durgahagar colony. It was aimed to create awareness on "Heart disease". Students delivered the speech about the symptoms of heart disease and the preventive measures.
